CALL FOR PROPOSALS: WEB DESIGN

HAND IN YOUR
PROPOSAL BY

15TH FEBRUARY

AND JOIN THE TEAM OF
HABIBI.WORKS IN GREECE!

What is NetWorks?

The program NetWorks was created to offer high quality workshops and vocational training to men and women living in refugee camps in Greece.

Until September 2019, we are going to invite one international and one Greek team of experts every month to join us in our maker space [Habibi.Works!](https://habibiworks.org/)

The teams are going to conduct a training in an area defined by our target group. The program offers skills & insights into different fields of expertise, but they will also create an online and offline support network between people who already are professionals within the (European) labour market and those who aim to access the labour market.

Moreover, NetWorks allows brilliant people from all around the globe to travel to Greece and connect with people living in refugee camps, getting to know the challenges they are confronted with and the incredible talents they have!

NetWorks is made possible with the support of the Facebook Community Leadership Program.

How to become a NetWorks-expert

The users of Habibi.Works have identified web design as one of their top fields of interest. Do you have skills in web design? Do you want to get to know the situation in Greece first hand? Do you want to get in touch with enthusiastic human beings?

Great! All you have to do is:

- Present an idea for a 4-5 day workshop in web design by 15th February (more detailed information on page 5)
- Hand in a first estimated budget for the activities together with your proposals
- Give us a time frame in which you can come to implement the workshop
- Implement the workshop with a team of up to 3 experts aiming to train 10 – 20 participants
- Join our Facebook Group “Net.Works – Habibi.Works Professionals” to stay in touch

What are we offering?

You (and your team) bring in all your ideas, energy and skills – we support with the rest as best as we can ;-)

- We include you in our team of experienced specialists from all over the world
- We get you on board of our Facebook Group Net.Works so you can stay in touch with us and the participants
- We support you with travelling costs
- We cover your costs for food and accommodation
- We get you in touch with incredible people
- We confirm your participation as workshop leaders in writing after you implemented the training

LEADERSHIP PROGRAM

How to apply?

Please send 1) your project proposal, 2) your budget and 3) a brief introduction about yourself (and your team) to help@soupandsocks.eu

Your proposal should not be longer than one A4 page and should answer the following questions:

- What is the skill or working process you plan to convey? Explain their benefits and where they can be applied.
- How many people will you bring with you? (max. team size is 3)
- How many participants will be able to join the workshop?
- What equipment (hardware and software) are you going to need?
- Which activities are you going to offer each of the 5 days to convey the skill? Please send us an estimated schedule.

Please hand in a budget including the estimated travelling costs for you (and your team) and the estimated costs for the workshop. Please note that we can't actually compensate you for your time. Let us know the dates you are available, best case between the 15th of February and the 1st of April 2019.

What is Habibi.Works?

Who we are

Soup and Socks is a German non-profit organisation founded in 2015 by a group of young adults who wanted to get active and set signs of solidarity with people who fled their countries. The current project of Soup and Socks is **Habibi.Works**.

What we believe in

People are the experts of their lives. We don't see people who fled their countries as helpless victims, but as talented and experienced men, women and children who can be an enrichment for our societies – if we provide the structures that allow them to integrate. This is what Habibi.Works aims to do on a small scale.

What we do

Habibi.Works is a makerspace, a space of open workshops. For refugees and locals living in the region of Ioannina, our community kitchen, the wood workshop, the metal workshop, the sewing atelier, the creative atelier, the media lab/FabLab and other working areas are *platforms for education, empowerment and encounters* within a context, in which many other doors remain closed for people.

Besides the practical support in Greece, it is our goal to raise international awareness for the talents of people and for the challenges they are facing.

How we do it

We support people to create solutions themselves. We listen to their ideas instead of telling them what to do. We encourage them to share their skills and teach; we empower them instead of carrying out something for them. We live the values we would like to see in our societies: **respect, solidarity, equity**. In our decision making, we try to be as transparent as possible. Open and honest communication is key.
